

CloudStack in the Era of AI Clouds

Kshitish Purohit

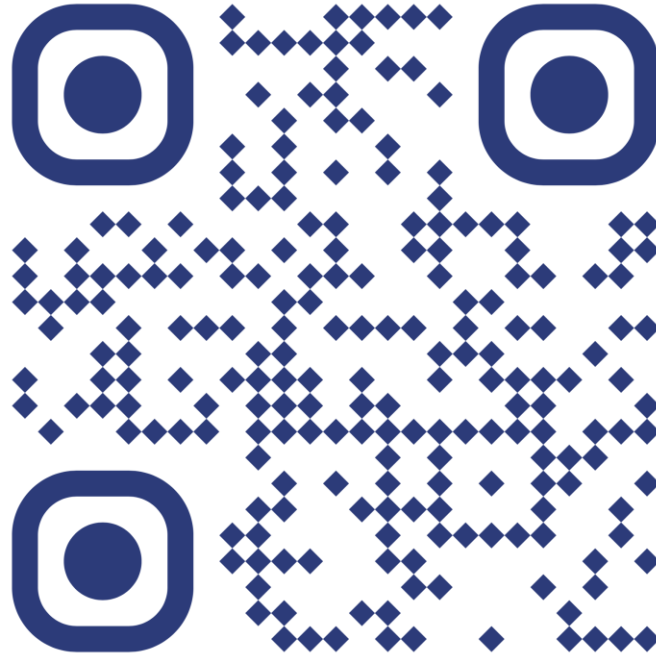

Vice President and Chief Product Officer (Cloud Platform)

Yotta

About Me

@Work

- Vice President and Chief Product Officer (Cloud Platform) at Yotta
- Ex-Chief Product Officer at Apiculus
- Industrial Designer, non-techie, (sometimes) very philosophical Product guy

!@Work

- Amateur athlete and outdoor educator
- Co-founder of one of India's largest trail running and outdoor communities
- Certified Ultrarunning Coach and Strength & Conditioning Specialist

Everyone and Their Neighbour

Wants AI

From High Up

BigTech is At It Again

“Built for AI” is the New Mantra

Big Push from Governments

Data Sovereignty is Paramount

**This era of AI
clouds is not
just about AI**

Hybrid Infrastructure, **Redefined**

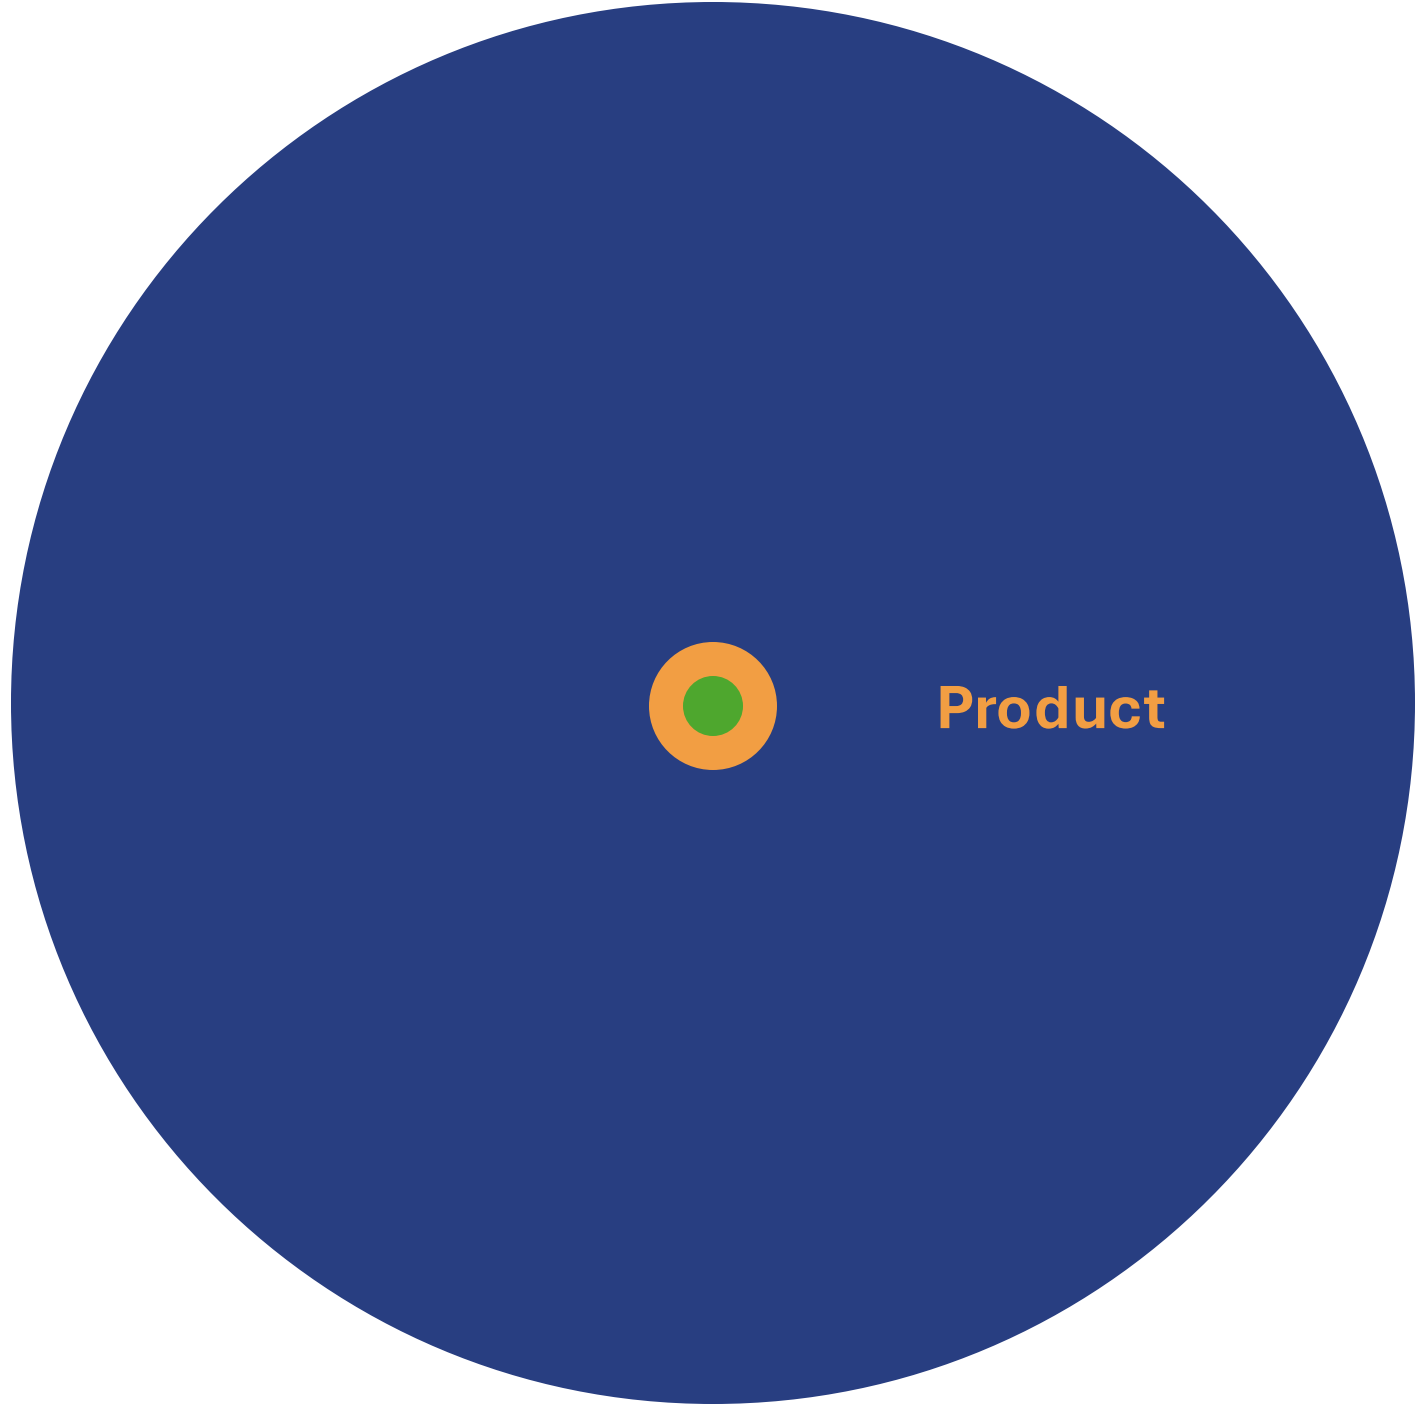

Cloud-native and AI

Supercharged self-service

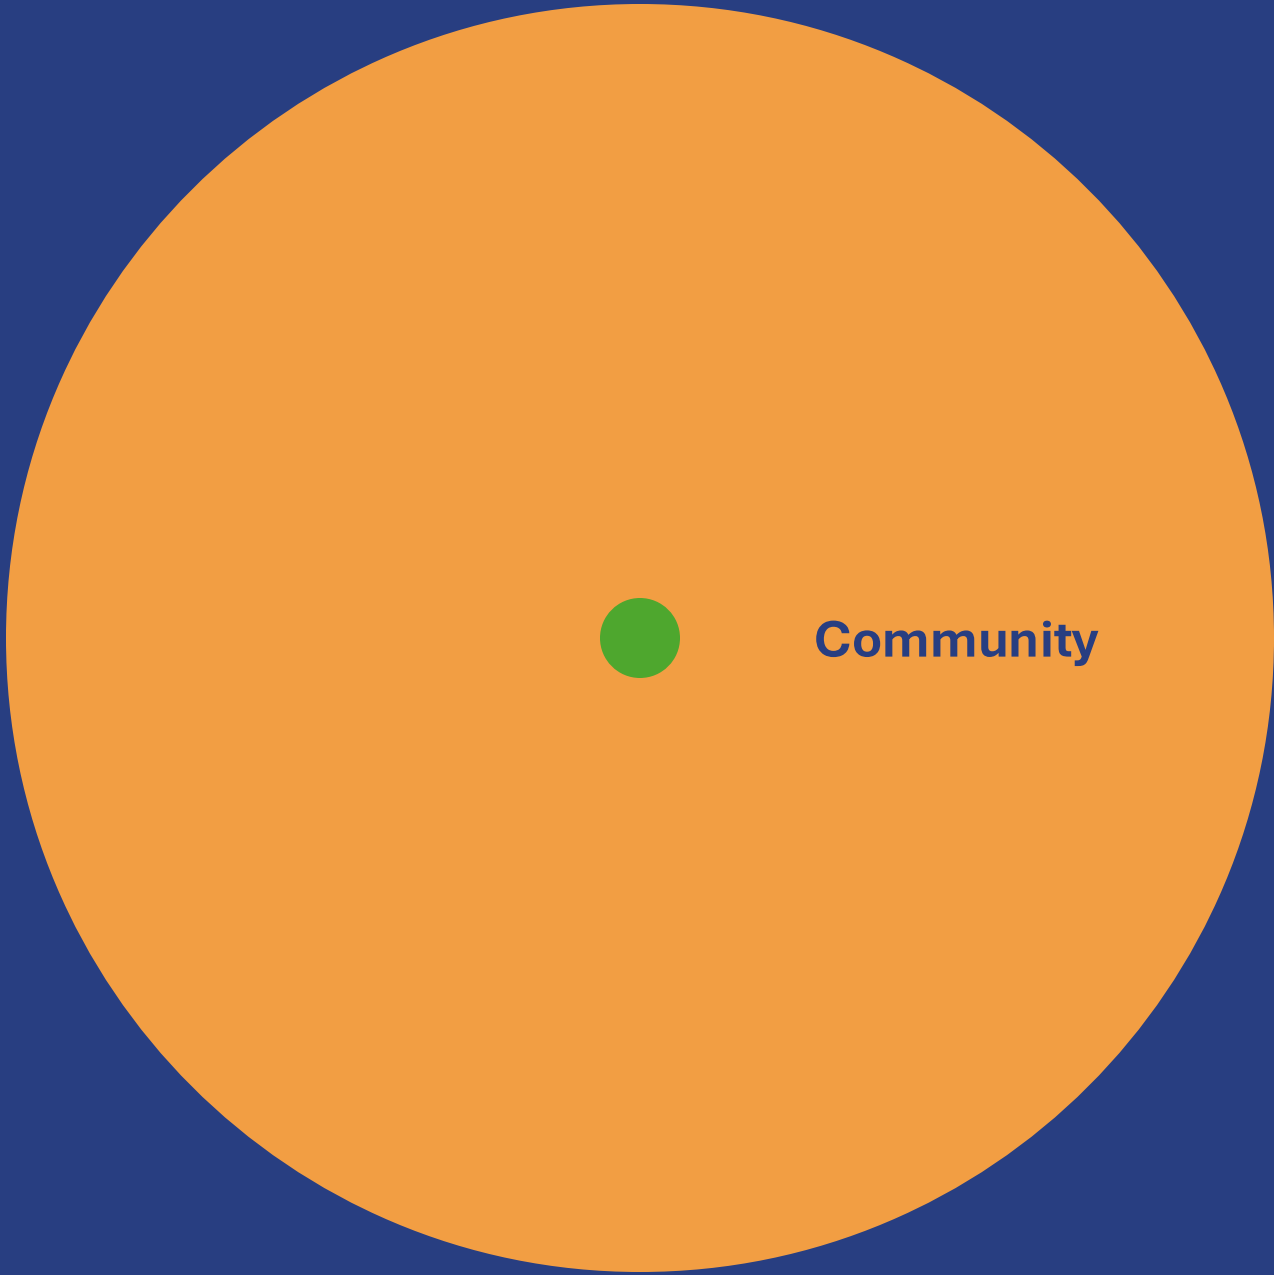

Agile, high-performance and FAST

What does all of this have to do with

CloudStack?

Community

Values

The CloudStack Ecosystem

- Easily wins over the other stacks
- Opening up even more
- Got a pretty awesome roadmap

PRODUCT

- Users and contributors who love the product
- More believers and backers
- Rich CloudStack stories

COMMUNITY

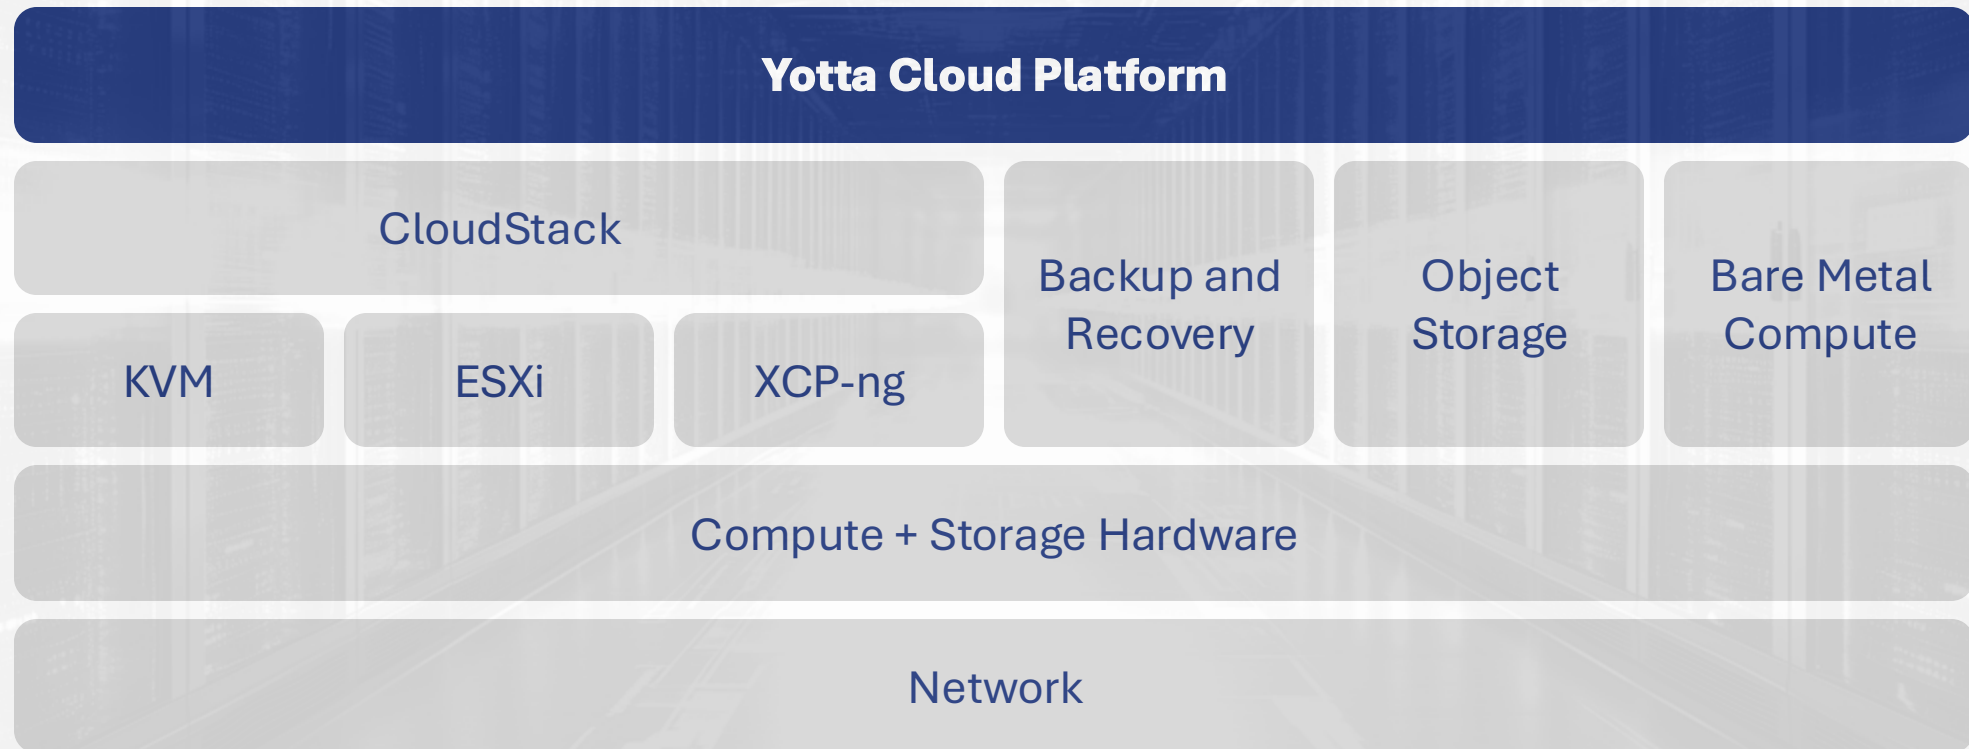

- Does not need the word 'open' in its name
- Transparent, honest and user-focused
- Extremely CSP-friendly

VALUES

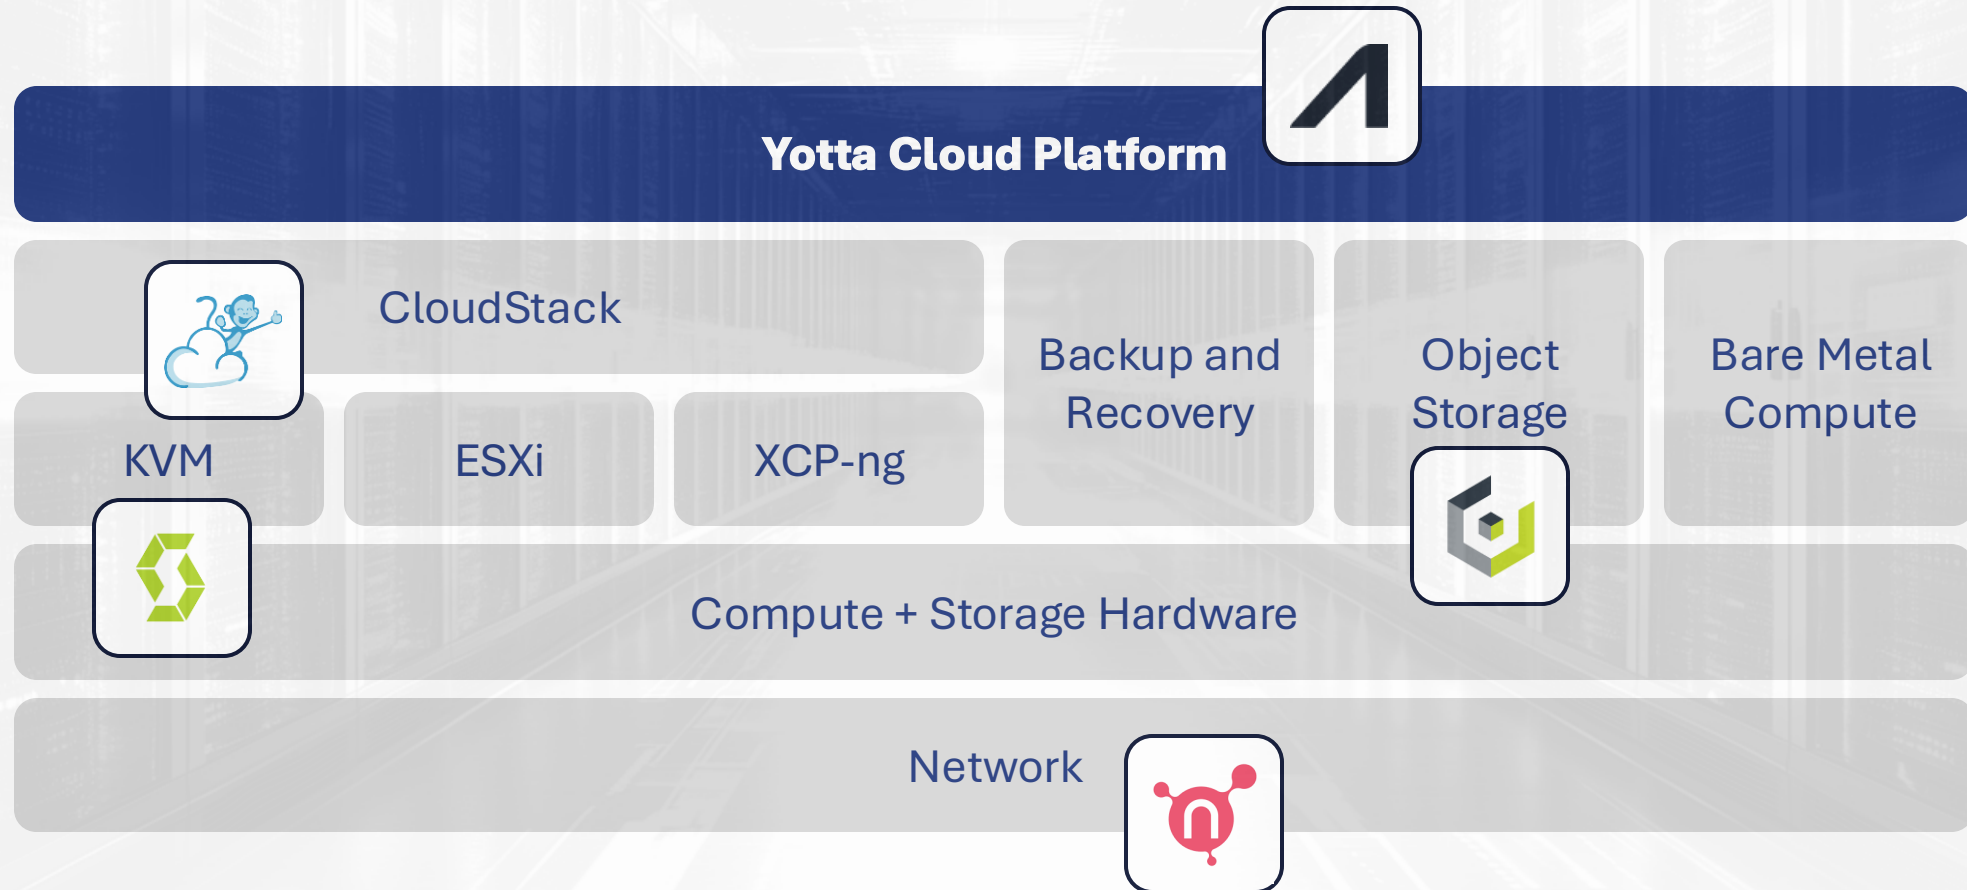

Flagbearers

for open technology development
in this era of AI clouds

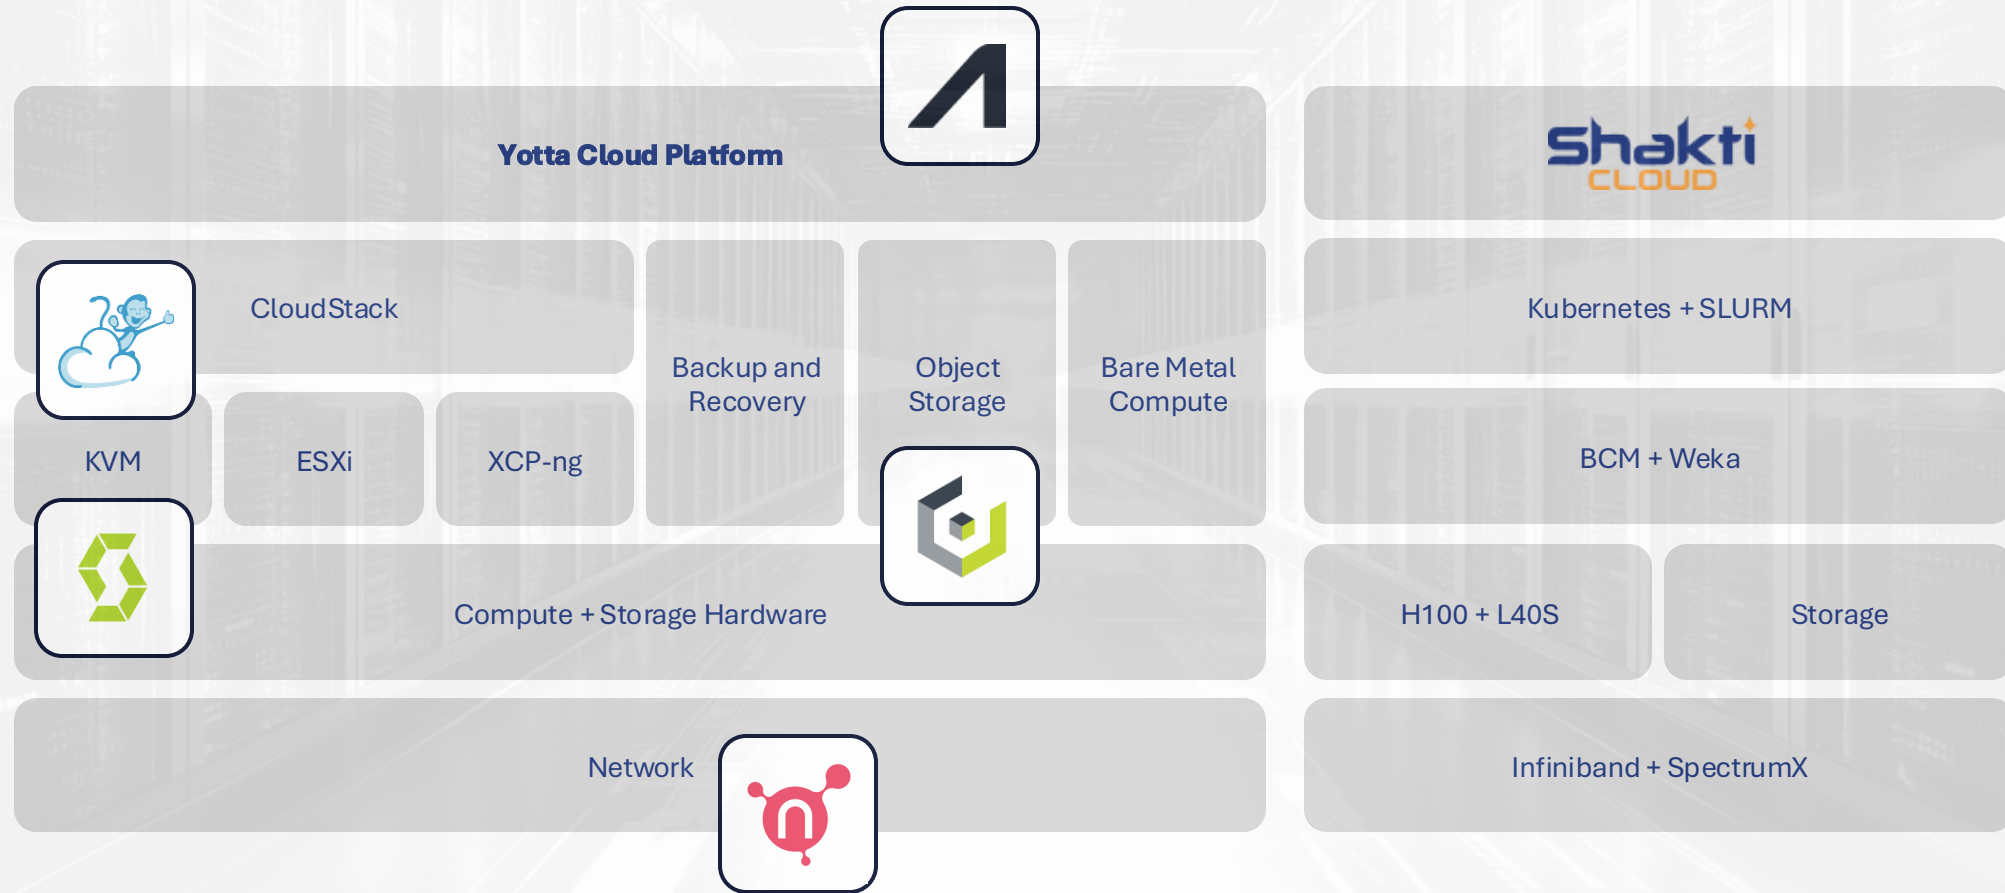

The CloudStack Ecosystem Flagbearer Model

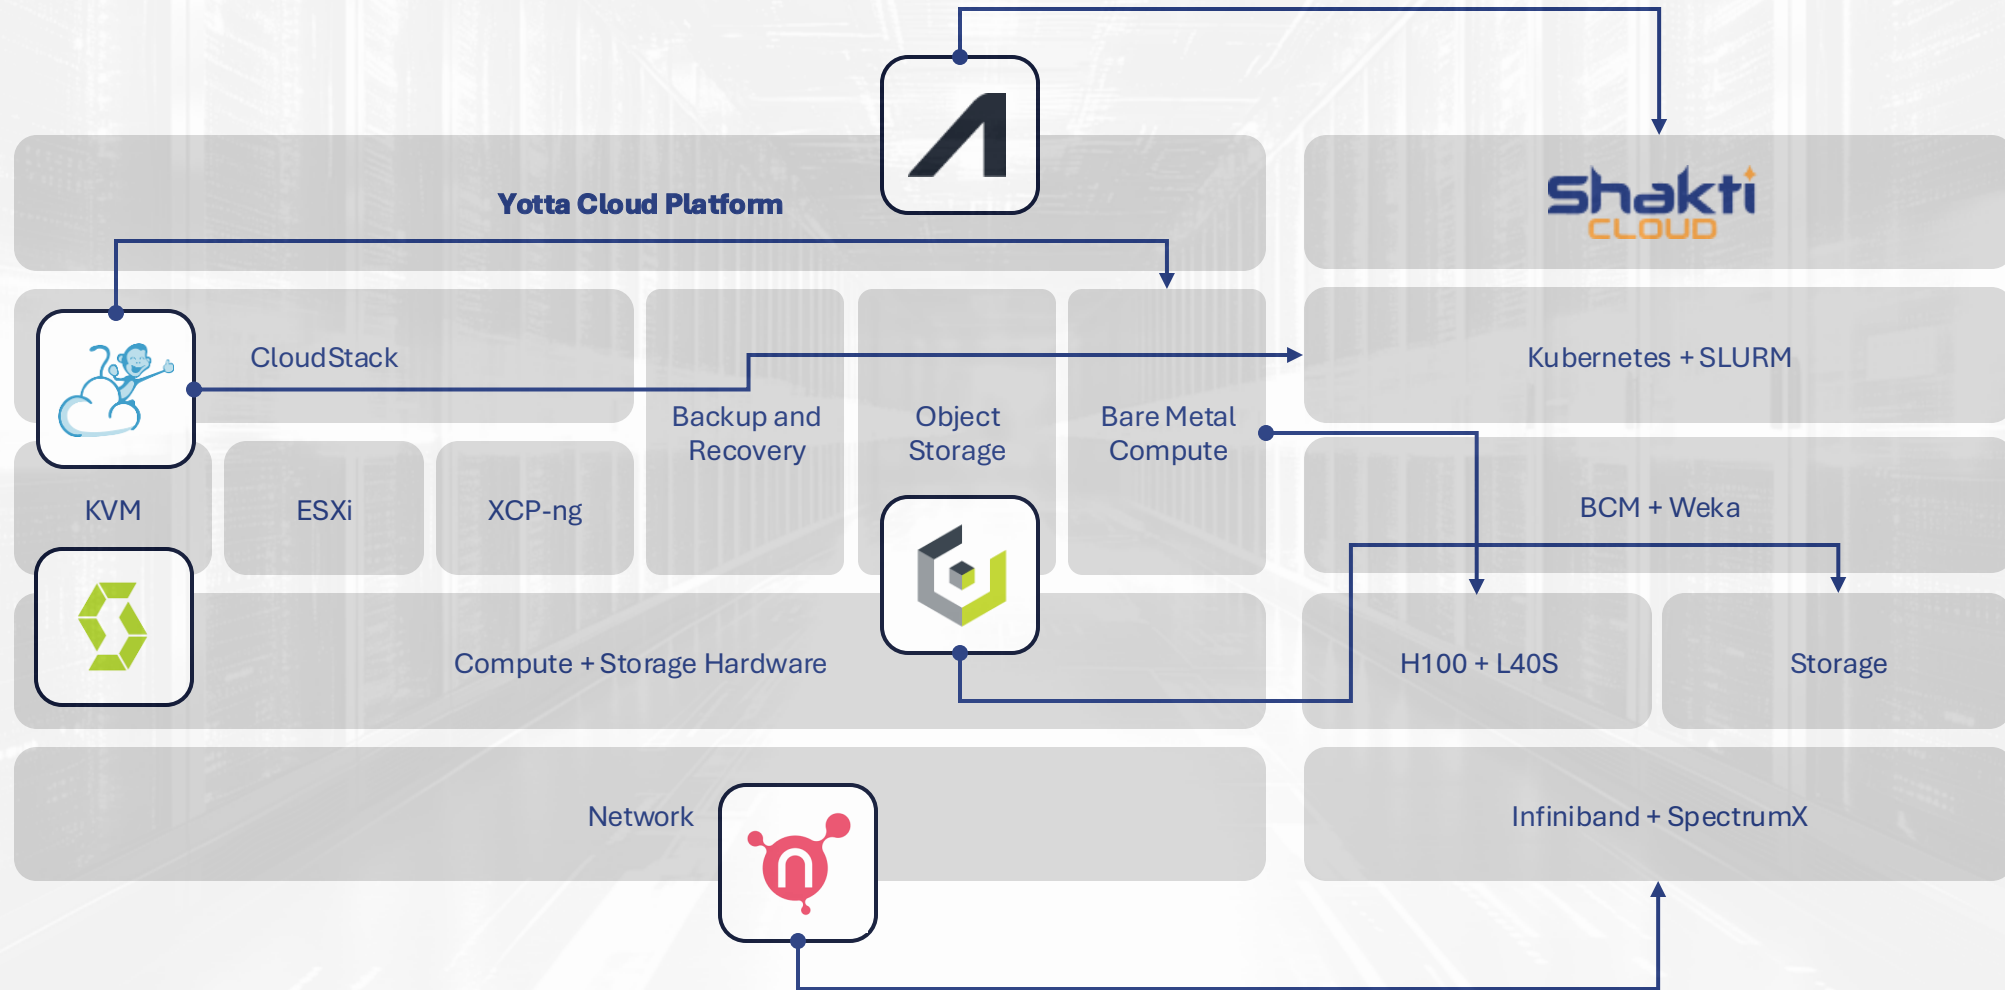

The CloudStack Ecosystem Flagbearer Model

The CloudStack Ecosystem Flagbearer Model

The CloudStack Ecosystem Flagbearer Model

Ready use cases

Hyperscale, Sovereign,
GovCloud, AI cloud

Ready market

CSPs and governments in
India and worldwide

Ready platform

Large footprint that's
already deployed globally
